

Zymurgy Institute

Zymurgy (*zī'mūr'jē*) -*n.* The branch of applied chemistry that deals with fermentation processes, as in brewing beer.

Gain refreshing hands-on experience in the science and technology of fermentation and beer brewing techniques with Colorado State University-Pueblo Continuing Education.

Choose to join us for one or all ten of the ZI 6.0 Spring 2012 Sessions, starting February 11, 2012 from 7 pm to 9 pm, to brew with one of the areas most successful production craft brewers. We will brew beers using recipes supplied by the class and the brewer on the Brew-Magic V350MS advanced home brewing system at **Pikes Peak Brewing Company, Monument, Colorado.**

Peruse the Class Topics & Batches schedule and fill out the registration form. Space is limited so act now.

Cheers!
